

COVID-19 HISTORY QUESTIONNAIRE, COQ QUESTION BY QUESTION (QxQ), VERSION 1.0

I. GENERAL INSTRUCTIONS

The COVID-19 History Questionnaire (COQ) is to be completed by the coordinator while interviewing the participant during the in-person clinic visit.

If the participant has already completed the COQ and documented complete vaccination (both doses of a two-dose vaccine or one dose of a single-dose vaccine), the COQ should NOT be repeated.

If the participant has previously completed the COQ with the date of the first dose and the only update needed is the addition of the second dose, use the “copy form” function and update the collection date and dose fields rather than starting a new form.

Please answer every question on this form. *NOTE: All response options in the paper form may not appear in CDART (e.g., ‘Don’t know’, ‘Declines to answer’, etc.).* Beside each item input is a small double bracket icon which looks like this: . Clicking this icon displays a field dialogue box in which the “Field Status” selection menu allows you to choose from the following options: ‘Refused’, ‘No response’, ‘Doesn’t know’, ‘Not applicable’, ‘Maximum value’, ‘Minimum value’, and ‘Missing’. **See MOP 6 – Section 3.2 for additional instructions on how to select a Field Status option.**

Whenever numerical responses are required, enter the number so that the last digit appears in the rightmost box. Enter leading zeroes where necessary to fill all boxes (e.g., enter 0.25 rather than .25).
